

Sachin Kumar

Front-end Web Developer

Agra, Uttar Pradesh | +91 9012584214 | kumarsachinkain2000@gmail.com | [GitHub](#) | [LinkedIn](#)

CAREER SUMMARY

Passionate front-end developer with experience in building responsive web applications using ReactJS, JavaScript, HTML, and CSS. Skilled in creating user-friendly, dynamic interfaces and collaborating with backend teams.

- Developed a responsive, mobile-friendly food ordering website using ReactJS with interactive UI and smooth navigation
- Integrated modern UI/UX design for optimized performance and accessibility across all devices

EXPERIENCE

Skillyards – Web Development Intern

DEC 2024 – FEB 2025

- Completed a 3-month internship focused on practical implementation of front-end and back-end concepts
- Contributed to multiple web-based projects and practiced real-world collaboration using Git and GitHub
- Gained hands-on experience in creating full-stack applications using the MERN stack

TRAINING & CERTIFICATION

Full Stack Web Development Course – Geekster

2023 – 2024 (1.5 Years)

- Successfully completed an intensive 1.5-year Full Stack Web Development program
- Learned and implemented HTML, CSS, JavaScript, ReactJS, Node.js, Express, and MongoDB
- Built multiple end-to-end projects and worked in collaborative environments using Git version control

PROJECTS

JUSPAY

- Collaborated on a team project to build a responsive payment gateway interface using HTML, CSS, and JavaScript
- Focused on front-end development to ensure a seamless, user-friendly experience for secure online transactions

TOMATO CLONE

- Developed a food ordering website using ReactJS
- Responsive design with clean UI and smooth navigation

MY BLOG

- Built a responsive blog website using HTML, CSS, and JavaScript
- Included sections for featured and recent posts with user-friendly layout

SKILLS

- **HTML & CSS:** Proficient in responsive, modern web layouts
- **JavaScript:** Strong skills in dynamic, interactive UIs
- **ReactJS:** Experience in scalable apps using React and hooks
- **Tailwind CSS:** Efficient styling with utility-first CSS
- **Git:** Skilled in version control for collaborative projects
- **Java:** Solid foundation in backend logic and OOP
